V1

A DECENTRALIZED

PROFIT-ORIENTED

FUTURE

A surreal office scene with a dark, industrial aesthetic. The room is filled with falling US dollar bills, creating a sense of chaotic wealth. In the center, there is a desk with two red leather chairs. The floor is covered in a thick layer of money. The ceiling has large skylights and a central light fixture. The overall color palette is dominated by dark blues, greys, and the reds of the chairs and falling money.

VISION

SalesCodex is a cryptocurrency that believes in the power of community and holistic success, which is why it is committed to a decentralized, profit-oriented future. Each SalesCodex token represents the discovery and sharing of the deep connection between technology, capital building and humanity.

MISSION

Sales Codex is built on 3 areas, building capital through the business concept, increasing capital through the SCX Token and its methods and the transformation to your best version in life.

OUR METHODS

WHY CHOOSE US

- 1** Our **MLM-SYSTEM** is revolutionizing the international sales market with modern sales automation, marketing strategies, software solutions and a high passive income.
- 2** The **NFT-FARM METHOD** offers the opportunity to earn 25% per month on the SCX tokens already purchased on the decentralized exchange, which are paid out daily (0.84%).
- 3** The **EQUITY METHOD** enables a deflationary effect in combination with an additional increase in value, as a link is created between the classic Sales Codex business model and the blockchain area, whereby a buy-back and burn is regularly carried out.
- 4** The **TOKEN REWARD METHOD** provides SCX Token holders with an additional reward system for holding SCX Tokens in their own decentralized wallet.
